JOURNAL OF CHROMATOGRAPHY A

VOL. 770, NOS. 1 + 2

16 MAY 1997

CONTENTS

(Abstracts/Contents Lists published in Analytical Abstracts, Biochemical Abstracts, Biological Abstracts, Chemical Abstracts, Chemical Titles, Chromatography Abstracts, Current Awareness in Biological Sciences (CABS), Current Contents/Life Sciences, Current Contents/Physical, Chemical & Earth Sciences, Deep-Sea Research/Part B: Oceanographic Literature Review, Excerpta Medica, Index Medicus, Mass Spectrometry Bulletin, PASCAL-CNRS, Referativnyi Zhurnal, Research Alert and Science Citation Index)

INTERNATIONAL ION CHROMATOGRAPHY SYMPOSIUM 1996, READING, UK, 16–19 SEPTEMBER 1996

Foreword
by P. Jones (Plymouth, UK) 1

GENERAL PRINCIPLES

Optimisation of selectivity in the separation of metallo–cyanide complexes by ion-interaction liquid chromatography
by Q. Huang, B. Paull and P.R. Haddad (Hobart, Australia) 3

Ion chromatographic separation of carboxylic acids. Prediction of retention data
by M.C. Bruzzoniti, E. Mentasti and C. Sarzanini (Turin, Italy) and P. Hajós (Veszprém, Hungary) 13

Retention behavior of carboxylic acids on highly cross-linked poly(styrene–divinylbenzene)-based and silica-based cation exchangers
by C.W. Klampfl, W. Buchberger and G. Rieder (Linz, Austria) and G.K. Bonn (Innsbruck, Austria) 23

Use of factorial experimental design for the rapid evaluation of main and interactive factors affecting linearity in calibration curves for sulfate analysis by ion chromatography
by M. Achilli and L. Romele (Segrate, Italy) 29

TECHNICAL ASPECTS

Continuous chromatographic separation process: simulated moving bed allowing simultaneous withdrawal of three fractions
by A. Navarro, H. Caruel, L. Rigal and P. Phemius (Toulouse, France) 39

Divalent pairing ion for ion-interaction chromatography of sulphonates and carboxylates
by M.C. Bruzzoniti, E. Mentasti and C. Sarzanini (Turin, Italy) 51

Studies on the combination of ion chromatography–particle-beam mass spectrometry with capillary columns
by W. Buchberger and K. Haider (Linz, Austria) 59

Modification of 4-(2-pyridylazo)-resorcinol postcolumn reagent selectivity through competitive equilibria with chelating ligands
by A.C. Co, A.N. Ko, L. Ye and C.A. Lucy (Calgary, Canada) 69

Surfactant-sensitized post-column reaction with xylenol orange for the determination of lanthanides by ion chromatography
by E.A. Gautier, R.T. Gettar, R.E. Servant and D.A. Batistoni (Buenos Aires, Argentina) 75

New fluorinated hydroxamic acid reagents for the extraction of metal ions with supercritical CO_2
by J.D. Glennon, S. Hutchinson, A. Walker, S.J. Harris and C.C. McSweeney (Cork, Ireland) 85

Determination of chlorine and bromine in rocks by alkaline fusion with ion chromatography detection
by P.A. Blackwell, M.R. Cave and A.E. Davis (Nottingham, UK) and S.A. Malik (Reading, UK) 93

APPLICATIONS

Water analysis

Validation of ion chromatographic methods for the trace analysis of ions in pharmacopoeial grades of water
by J.P. Waterworth (Welwyn Garden City, UK) 99

(Continued overleaf)

Calculation of detection limits for a single-laboratory ion-chromatographic method to determine parts-per-trillion ions in ultrapure water
by L.E. Vanatta (Dallas, TX, USA) and D.E. Coleman (Alcoa Center, PA, USA) 105

Ultra-pure water for ion chromatography
by P. Whitehead (High Wycombe, UK) 115

Performance of ion chromatography in the determination of anions and cations in various natural waters with elevated mineralization
by N. Gros and B. Gorenc (Ljubljana, Slovenia) 119

Analysis of ions in polar ice core samples by use of large injection volumes in ion chromatography
by J. Ivask and J. Pentchuk (Tartu, Estonia) 125

Single-column method of chelation ion chromatography for the analysis of trace metals in complex samples
by P.N. Nesterenko (Moscow, Russian Federation) and P. Jones (Plymouth, UK) 129

Inorganic species

Practical aspects of suppressed ion chromatography for cations in human serum
by J.E. Van Nuwenborg, D. Stöckl and L.M. Thienpont (Ghent, Belgium) 137

Determination of nitrite and nitrate in human serum
by J.M. Monaghan (Sheffield, UK), K. Cook and D. Gara (Camberley, UK) and D. Crowther (Sheffield, UK) 143

The role of nitric oxide in cancer. Improved methods for measurement of nitrite and nitrate by high-performance ion chromatography
by M.R.L. Stratford and M.F. Dennis (Northwood, UK), R. Cochrane (Camberley, UK) and C.S. Parkins and S.A. Everett (Northwood, UK) 151

Determination of sulfur oxyanions by ion chromatography on a silica ODS column with tetrapropylammonium salt as an ion-pairing reagent
by Y. Miura, A. Saitoh and T. Koh (Kanagawa, Japan) 157

Reversed-phase ion-interaction chromatography of Cu(I)–cyanide complexes
by P.A. Fagan and P.R. Haddad (Hobart, Australia) 165

Ion chromatographic analysis of cyanate in gold processing samples containing large concentrations of copper(I) and other metallo–cyanide complexes
by P. Fagan, B. Paull and P.R. Haddad (Hobart, Australia), R. Dunne (Perth, Australia) and H. Kamar (Lakefield, Canada) . . . 175

Use of ion chromatography for the determination of transition metals in the control of sewage-treatment-plant and related waters
by N. Cardellicchio and P. Ragone (Taranto, Italy), S. Cavalli (Pieve Emanuele, Italy) and J. Riviello (Sunnyvale, CA, USA) . 185

Monitoring the removal of soluble salts from ancient tiles by ion chromatography
by C. Borges, C. Caetano, J. Costa Pessoa, M.O. Figueiredo, A. Lourenço, M. Malhoa Gomes, T.P. Silva and J.P. Veiga (Lisboa, Portugal) 195

Organic species

Determination of anions in landfill leachates by ion chromatography
by D.A.C. Manning and A. Bewsher (Manchester, UK) 203

Ion-exclusion chromatography of aliphatic carboxylic acids on a cation-exchange resin by elution with polyvinyl alcohol
by K. Tanaka and K. Ohta (Nagoya, Japan) and J.S. Fritz (Ames, IA, USA) 211

Retention behavior of alkali, alkaline earth and transition metal cations in ion chromatography with an unmodified silica gel column
by K. Ohta and K. Tanaka (Aichi, Japan) and B. Paull and P.R. Haddad (Hobart, Australia) 219

Analysis of aliphatic carboxylic acids and amino acids in effluents of landfills, composting plants and fermentation plants by ion-exclusion and ion-exchange chromatography
by K. Fischer, A. Chodura, J. Kotalik and D. Bieniek (Oberschleissheim, Germany) and A. Kettrup (Oberschleissheim and Freising-Weihenstephan, Germany) 229

Use of ion chromatography for monitoring microbial spoilage in the fruit juice industry
by A. Trifirò, G. Saccani, S. Gherardi, E. Vicini, E. Spotti, M.P. Previdi and M. Ndagijimana (Parma, Italy) and S. Cavalli and C. Reschiotto (Pieve Emanuele, Italy) 243

In-line respeciation: an ion-exchange ion chromatographic method applied to the separation of degradation products of chemical warfare nerve agents in soil
by W.D. Vermillion and M.D. Crenshaw (Columbus, OH, USA) 253

Determination of impurities in clodronic acid by anion-exchange chromatography
by G.E. Taylor (Loughborough, UK) 261

High-performance ion chromatography applied to free-radical mechanisms in drug design. The problem of ion analysis at high ionic strengths
by S.A. Everett, M.F. Dennis, K.B. Patel, P. Wardman and M.R.L. Stratford (Northwood, UK) 273

Electrochemical separations

Comparison of ion chromatography and capillary electrophoresis for the determination of inorganic ions
by P.R. Haddad (Hobart, Australia) 281

Determination and prediction of transfer ratios for anions in capillary zone electrophoresis with indirect UV detection
by P. Doble, P. Andersson and P.R. Haddad (Hobart, Australia) 291

Separation of inorganic anions in acidic solution by capillary electrophoresis
by M.J. Thornton and J.S. Fritz (Ames, IA, USA) 301

Sulfur speciation by capillary electrophoresis with indirect spectrophotometric detection: In search of a suitable carrier electrolyte to maximize sensitivity
by S. Motellier, K. Gurdale and H. Pitsch (Fontenay-aux-Roses, France) 311

Determination of phosphate in natural waters by capillary electrophoresis. Influence of solution composition on migration time and response
by M.A.G.T. van den Hoop and J.J. van Staden (Bilthoven, Netherlands) 321

Determination of metallo-cyanides by capillary electrophoresis after concentration on supported liquid membranes
by P. Kuban and W. Buchberger (Linz, Austria) and P.R. Haddad (Hobart, Australia) 329

Capillary zone electrophoretic determination of ionic impurities in silicone products used for electronic applications
by V. Verhelst, J.-P. Mollie and F. Campeol (Seneffe, Belgium) 337

Analysis of sulphonated phthalocyanine dyes by capillary electrophoresis
by J. Schofield and M. Asaf (Leeds, UK) 345

Routine determination of major anions in atmospheric aerosols by capillary electrophoresis
by E. Dabek-Zlotorzynska, M. Piechowski, F. Liu, S. Kennedy and J.F. Dlouhy (Ontario, Canada) 349
